Art Unit: 1742

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1, 7 and 9, the parenthetical terms should be either deleted or incorporated into the claims as clear limitations. It is unclear if Applicant intends said terms to be considered as limitations or as examples.

In claim 1, it is unclear how the reduction limitation would be applied if the applied particles were metals.

In claim 1, line 3, the term "the particles" lacks antecedent basis. The Examiner recommends in line one to replace "metal coating" with --metal coating formed of particles--.

In claim 2, "the help" lacks antecedent basis. The Examiner recommends --by--.

In claim 5, it is unclear if the compounds are to be treated as individual coatings or as a multi-component coating.

In claim 6, the Examiner recommends replacing "to" with --at--.

In claim 7, when is the treatment applied?

In claim 8, the term "the required degree" is relative and vague. The Examiner recommends deleting claim language after "atmosphere".

Art Unit: 1742

In claim 10, the "metallized abrasive particles" have no antecedent basis. Additionally, when does the sintering step take place, after coating? The Examiner recommends making claim 10 dependent from claim 9 and clarifying that the steps take place to the surface coated materials.

In claim 11, the language is not further limiting to a method claim.

3. The prior art should be submitted on a proper Form-1449 for consideration by the Examiner.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel J. Jenkins whose telephone number is 703-306-4157. The examiner can normally be reached on M-TH6:30AM-5:00PM.
